INTRODUCING

The release of a new 127 page soft cover book:
"Early Farm Power"

This book completes the story of the advertising of the early International Harvester Farm Tractors. Many of the older tractors in this book are rarely seen, so this volume becomes more of a history book. I have also included some ads of the small stationary gasoline engines, that furnished power to some of the jobs around the farmstead.

I hope I-H fans will enjoy this peek into the past as much as I have. All ads and images in this book are from my personal collection.
